BANGOR DAILY WHIG AND COURIER.

BY SMITH & SAYWARD. FRIDAY, NOVEMBER 12, 1847. VOLUME XV.....NUMBER 115.

GRAEFENBERG VEGETABLE PILLS

THERE ARE THE most decided evidences [illegible] class of Medicines denominated [illegible] should be made the means of [illegible] blessings to the human family. [illegible] that a high order of talent, long and [illegible] tion, and great medical learning [illegible] brought to bear upon the invention and [illegible] a Pill. Why may not this long dwelling [illegible] tion of medical science be crowned with [illegible] that exceeds the execution of similar labors [illegible] no earthly? There is no reason, and [illegible] complex diets of the simplest composition [illegible] the A. F. thus produced will be as perfect as [illegible] man. Twenty-five years devotion to [illegible] subject will give a man of ability the mastery [illegible] This honor has been bestowed upon the

Graefenberg Vegetable Pills

and they are presented to the public with claims [illegible] allied to the whole history of medical science.

It will be seen, in tracing the history of all past inventions, that they were not made or discovered [illegible] the arrival of what may be termed their [illegible] time. The mariner's compass, for instance, [illegible] invented until the "fullness of time" it was unknown. The loadstone always lay at man's feet, but he could know what a wonderful and unerring guide [illegible] until in the silent bosom, until the Divinely appointed time drew near when distant continents and [illegible] were to be unveiled. Behold it now transferred to the bosom of the adventurous mariner, enabling him fearlessly to launch far away upon unknown Oceans, instead of timidly sailing within sight of familiar land-marks!

So with the discovery of the New World, upon whose shores was to arise this Great Nation to a pinnacle of glory, a mission far beyond the conception of the [illegible] age. The Old World had published its highest learning, the "fullness of time" drew nigh for the revelation of the New, and behold the immortal Columbus, [illegible] the forecastle of his disembarked and leaky vessel, found it! So with the invention of printing, of steam, of the magnetic telegraph. Each of these, and few more, "children of time," marked, distinct and Providential.

☞ IN MEDICAL SCIENCE THE same great empirical principles are equally manifest. Most beautiful are the illustrations and proofs of this truth to be found in the history of the world. We can trace them from the Mosaic dispensations down to the present hour; all of them touching on the lessons and giving us the hope that something yet better is held beneath [illegible] is at hand.

That this principle is as true of Medical as of Physical science, is thus shown in the

GRAEFENBERG GAZETTE,

which is furnished gratuitously to all who wish it.—The

Graefenberg Pills,

are deemed by all who have tested them to be an inconceivable advance upon all other medical combinations and discoveries hitherto known, and they are announced as

THE GREAT REMEDIAL TRIUMPH.

The inventor of these Pills rests his claims upon no school nor dogma of ordinary medical teachers. Trusting himself upon the revelation of the

ALMIGHTY CREATOR,

THAT

"THE BLOOD IS THE LIFE,"

he requires that his disciples and his patients make pure the life current that leaps through their veins and arteries, before they can hope for a PERMANENT cure. Health can give them, and so can others; but bright and joyous health must come from a pure blood.

But a most sad thought here comes in! So numerous are the impositions which are practiced upon the public by pretenders, and so numerous and beautiful are the medicines advertised, that the reader may be slow to believe in this Great Remedy. A word, therefore, on this point.

In the first place, READ THE GRAEFENBERG GAZETTE. No matter how sceptical you may now be, that paper will convince you. Thousands have been convinced in every State and Territory in the Union, and among them distinguished statesmen, jurists, clergymen, physicians, civilians. The bare mention of their names would fill this page. Let the reader send to the most convenient agency for a copy of the Gazette, which can be had

GRATIS!!

In the second place, TRY THE PILLS. It will cost but the merest trifle, and will introduce you to a medicine which you will deem a blessing to the rest of your days. A thousand things press upon the minds of those who testify to their cures which they would rejoice to say to the reader, but the limits of this advertisement forbid. But let any one afflicted with the following diseases make trial of the Graefenberg Pills and they will be PERMANENTLY CURED:

Asthma,	*Flatulency,*
Bilious Complaints,	*Floor Bleed, or Whites,*
Boils,	*Hectic Fever,*
Bowels, different action in,	*Green Sickness,*
Breast Pang,	*Gripes,*
Cutaneous,	*Heartburn,*
Constipation,	*Headache,*
Cough of Pregnancy,	*Hysterics,*
Costiveness,	*Incontinence of Urine,*
Diarrhea,	*Indigestion,*
Difficult Breathing,	*Inflammation of vital parts,*
Dyspepsia,	*Inflammation of the stomach,*
Dyspeptic Consumption,	*Jaundice,*
Digestion, imperfect,	*Liver complaints,*
Determination of Blood to the head,	*Low spirits,*
Ear Ache,	*Menstruation, Suppressed or painful,*
Erysipelas,	*Nervous disorders,*
Epilepsy,	*Neuralgia,*
Fever—Low, Nervous, Intermittent, Remittent,	*Rheumatism,*
Fever and Ague,	*Stomach, various diseases,*
	Water,

In all those or chronic disorders, these Pills achieve the most wonderful triumph. HERE THEY DEFY CONTENTION. And as the susceptibility of the American constitution is to those diseases, they are aptly styled by some

The Pill of the New World.

Their wonderful efficacy in these complaints stems from their power to OPEN THE POREs, CLEANSE AND STRENGTHEN THE STOMACH AND BOWELS, MAKE THE URINE FLOW healthily and clear, AND TO GIVE TONE AND VIGOR TO THE SYSTEM.

It is impossible, within the limits of an ordinary advertisement, to give the reader the reasons for the most extraordinary success and spread of these Pills. But reasons do exist, which have abundantly satisfied the minds of thousands in this country; and among them the accomplished Physicians, Jurists, Clergymen, and private citizens, male and female.

☞ NUMEROUS CERTIFICATES of the wonderful efficacy of these Pills might be presented; but a certificate in these days is scarcely worth the paper on which it is printed. A few extracts from the correspondence of the Company, will, however, be given.

FROM INDIANA:

"Your enterprise is the enterprise of the day. Its magnitude will astonish its originators. It is destined to effect a complete revolution in the medical world."

FROM A JUSTICE OF THE PEACE IN WARREN N. YORK:

"I have sold a number of boxes to the citizens of this place. They have given entire satisfaction, and they are destined to become the most popular Pill of the day."

FROM TOLEDO, OHIO:

"Having heard so much, and witnessed two or three cures treated to the mode directed by your Journal, I have thought it important you should have an agent in this place. In my opinion, more good can be done in this populous climate by your medicines, than by the old nauseous stuff."

I address you at the instance of a friend who is making a thorough trial of your remedies, and with complete success."

FROM A DISTINGUISHED GENTLEMAN OF BOSTON:

Gentlemen,

I cannot refrain from troubling you with a line to express my great pleasure in being able to state that I have experienced the greatest relief from the use of your Pills. For many years I have suffered with constipation, which has disarranged my whole system, and I have not known a day's good health for many years past, and being an old man, I despaired of ever again enjoying life; but a friend recommended me to try your Pills, which I did, although [illegible] dence, the result, I am happy to say, has far exceeded my expectations, the cause being nearly removed, and I feel my health and strength daily increasing, and I am satisfied that the merits of your Pills, when tested, must be acknowledged by the whole community, and will become the most popular medicine of the day."

FROM BOSTON ——, of Boston:

Sir,

Since writing to you last upon the subject of my ill-health, I have been taking your medicine, and am pleased to say, that they have been of great service to me, and if they continue to give me the relief I have already felt, I shall bless the day you sent them. Nobody can realize again to the sufferings I have undergone for years, but instead to providence, and hope to be able, the next time I write, to give you the happy intelligence of a perfect cure. I have heard of many instances in my neighborhood wherein they have performed astonishing cures."

FROM AN EPISCOPAL BISHOP.

Gentlemen—I consider it to be the duty of every one to make known to the world any advantage they may have derived by accident or from personal experience of their own, and with the sentiment I have prefaced to my mind, I feel great gratitude to your Pills. It may perhaps appear in the highest degree improbable that any discovery you have made in the healing art, I was induced to try them, [illegible] a special manner in which you have [illegible] subject, and I must do myself the pleasure of giving notice to any that I had no expectation of any effect could be arrived at. My complaint was of the kidneys, from which I despaired of ever [illegible] since taking your Pills, I find my spirits and appetite so much improved, and my usefulness so endeared, without the danger of an arduous Profession. [illegible] to your agent for more Pills upon my own account and gratitude, I ask, [illegible]

From every section of the country testimonials are daily received, but [illegible] or extracts. Often these, [illegible] with scrofulous and other

WHOLESALE AGENTS:

[illegible]

☞ It is to you, whoever [illegible] will appreciate our [illegible] otherwise.

☞ Persons writing to the Agents should always mention the name of the town they live in, [illegible]

OTHER AGENTS:

Any person remitting fifty cents, free, will receive one copy, by mail, to any part. The trade supplied. weowly Jan. 1847

RUST PROOF IRON.

FOR

ROOFING, WINDOW SHUTTERS, &c.

THE subscribers beg to call the attention of all those interested in roofing to their GALVANIZED TIN PLATES, and to the many advantages which they possess over all metallic and other substances hitherto used for this purpose, possessing as they do, the strength and lightness of iron without its liability to rust, having now been tested several years, both in this country and in Europe. They are also less subject to expansion and contraction from sudden changes of the atmosphere, than common Tin Plate, Iron, Zinc, &c., or any other metal now used for roofing, and consequently form a much better and tighter roof; requiring far less frequent repair, whilst the first cost is but a trifle more.

The subscribers would also call the attention of all dealers and workers in metals, to the many other purposes to which from this protected, can be applied. In general terms it is applicable to all articles of iron which it is desirable to protect from the action of the atmosphere. And they would especially call the attention of those interested in TELEGRAPHIC LINES, to their Galvanized Wire, which is now almost entirely used in Europe, and which answers every purpose as a conductor of electricity, costing only about one-half as much as copper, and possessing equal durability with that metal.

Having lately erected works in this city for the purpose of galvanizing Nails, Spikes, Bolts, Wire, &c., they will be able to furnish any article which may be desired. A supply of Plates (manufactured in Europe,) constantly on hand, from 16 to 32 wire gauge. GEO. B. MOREWOOD & CO.,

Nos. 14 and 16 Beaver-st., New York.

The Patent Right for this article has been secured for the United States as well as Great Britain, and other European countries, and all legal measures will be taken to prevent any infringement by importation or otherwise.

oct 27. 1846. ehw&kwly

IMPORTANT NOTICE.

Kidder's Valuable Horse Liniment.

WARRANTED to be one of the most valuable articles ever offered to the public for Sprains, Windgalls, Spavins, Stiffness of the Joints, Strains, and Callouses of long standing; also Swellings, Fresh Wounds, Galls, &c. &c.

This truly valuable Liniment has been in use for the last 15 years, and in no instance has it failed to give satisfaction to the purchaser; it is cheaper than any other article as it requires but a small quantity to complete a cure. Also will answer equally as well for Neat or Horn Cattle.

Prepared only by the Inventor and Proprietor, JAMES KIDDER, JR., East Boston. For sale by G. W. LADD, and POTTER & BROWN, Bangor. nov 21. ow&kwly

FLOUR from New Wheat.

PAINTED WINDOW SHADES, [illegible] A. F. GUILD.

Old Papers for sale at this Office.

To the Public.

IMPORTANT MEDICAL NOTICE.

DR. PETERS has REMOVED from Endicott street to No. 13 Wilson's Lane, BOSTON, a few steps from Dock Square—where he can be consulted in all cases of Disease of a delicate nature. Dr. Peters has been in practice in Boston for the last seven years; and is now acknowledged to be the most experienced Physician now advertising for the cure of certain maladies. His cures are unlimited—his knowledge of delicate diseases unbounded; he spares no pains or expense to relieve those who honor him with their confidence.

IN SCROFULA,

his experienced eye, at once, discovers the state and cause of the evil, without first experimenting to ascertain the location of the disease, as do Quacks and Novices in wonders. He perceives the difficulty at once, and applies the right remedy.

IN CHRONIC AFFECTIONS

of the Bladder, he is always sure of performing a perfect cure—having a perfect knowledge of the organs affected, and the proper medicine to be applied.

IN GONORRHŒA,

a single glance enables him to ascertain the precise state of the disease, and to apply his never-failing remedies to the particular parts, and the complaint will disappear in a short time after the application, never to appear again.

IN SYPHILIS,

his medicines stand in the foremost rank of the medical world—removing the disease from the system, no matter of how long standing or difficult it may be.

Also, the following diseases come under the special care of Dr. Peters—viz: Kings Evil—Salt Rheum—Tetter—Cutaneous Affections—Seminal Weakness—Nocturnal Emissions, superinduced by secret bad habits when young, &c. &c.

TO FEMALES,

Dr Peters would say that he has a perfect knowledge of their system, and can warrant them a perfect cure from all complaints peculiar to their sex. The following are a part of the complaints which come under his particular notice—viz: Suppression, Irregularities of the Menses—Whites—Pains in the Back and Sides—Falling of the Womb—Green Sickness, &c. &c.

N. B. Persons at a distance can consult Dr. Peters by letter, *post-paid,* describing their complaints, and enclosing a remittance. Direct "Dr. Peters, 13 Wilson's Lane, Boston, Mass." Medicines can be sent by Express to all parts of the United States and the Canadas.

TO SEAMEN,

Dr Peters would say that his medicines can be taken at sea, and are peculiarly fitted for their use, being concentrated into a portable and compact form. If, those who are about taking medical advice, will call upon Dr. Peters, he will give them ample proof of his abilities to perform a perfect cure, however protracted their case may be. dlm oct. 15

COTTON WARP.

1000 LBS. Cotton Warp rec'd per last boat, for sale by the Agent, W. A. BLAKE. aug 12

Chrehugh's Tricopherus,

OR MEDICATED COMPOUND,

FOR the *HAIR*—for sale by G. F. SARGENT, 40 No. 22 West Market Place.

Boarding House.

THE subscriber has opened a commodious Boarding House on East-Market Square in Bangor, in the house recently occupied by Messrs. Wilton & Badger. This House is in the very eye of business, and every attention will be given to make it a pleasant and agreeable home to such as may be disposed to become boarders.

All are invited to apply, with the assurance that no efforts will be spared to please them.

WM. S. PRICHARD.

Bangor, July 16, 1847. d3m

TESTED BY THE EXPERIENCE OF THOUSANDS FOR 20 YEARS PAST.

The Vegetable Pulmonary Balsam,

Has proved itself the BEST REMEDIAL AGENT known for *Coughs Colds, Consumptions, Asthma, Phthisic, Spitting of Blood, Whooping Cough, and all Pulmonary Affections and diseases of the Lungs,* as has, and can be shown from the testimony of the most respectable Physicians and others, who are entitled to the most unquestionable belief. After having tried the many new preparations, without finding the expected relief, multitudes are compelled to return to the use of the VEGETABLE PULMONARY BALSAM, which they acknowledge to be after all, the best remedy known for the above complaints.

☞ Beware of Counterfeits and Imitations, such as *Carter's Compound Pulmonary Balsam—American Pulmonary Balsam,* and others in part bearing the name. Inquire for the article by its whole name, the "VEGETABLE PULMONARY BALSAM," and see that it has the written signature of WM. JOS'N CUTLER upon a yellow label on the blue wrappers. Each bottle and seal is stamped "Vegetable Pulmonary Balsam."

Prepared by REED & CUTLER, formerly Reed, Wing & Cutler, Importers and Wholesale Dealers in Medicines, Paints, Chemicals, and Dye-Stuffs, 51 Chatham street, Boston, and sold by Druggists, Apothecaries and Country Merchants generally. For particulars and recommendations inquire for a Pamphlet accompanying each bottle. Price 50 cents. For sale in Bangor by G. W. LADD, A. F. GUILD, & W. H. BROWN. oct 20 3tawd&w6m

PATENTS.

AMERICAN AND FOREIGN OFFICE,

And Agency of the U. S. Patent Office, Washington

22 State Street—Boston.

THE subscriber, by appointment from the Commissioner of Patents, is Agent of the U. S. Patent Office for the purpose of receiving and forwarding to the same all such models, specimens of ingredients, and manufactures, as shall be intended to be patented, or deposited therein, which will be received and forwarded, free of expense and risk, to their owners, and with all possible despatch. The subscriber will prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings, will make researches into American and Foreign works, for establishing the validity or utility of inventions, and render advice on all legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents. The experience of sixteen year's practice—an extensive collection of rare works, documents, decisions, &c. on mechanical subjects and the Patent Laws—and patents of different countries, collected at much expense during the long time this office has been established, and to which daily additions are being made, together with accounts here kept of inventions patented at Washington, enable me to afford important assistance and information to inventors desirous of securing Patents, which in other respects might be difficult of attainment.

R. H. EDDY, Civil Engineer.

DR. WARREN'S

SARSAPARILLA, TOMATO AND WILD CHERRY

PHYSICAL BITTERS,

At 50 cents per Bottle.

SARSAPARILLA, TOMATO and WILD CHERRY BITTERS have now become a standard Medicine, universally approved by Physicians as a safe, speedy, and effectual remedy for *Scrofulous, Mercurial and Cutaneous Diseases;* Jaundice, Indigestion, Dyspepsia, Bilious disorder, Liver Complaints, Costiveness, Weak and Sore Stomach, Ulcers and running Sores, Swelling of the Limbs, Pain in the Bones, Tumors in the throat, Rheumatic affections, Saltrheum, Erysipelas, bad Humors, Eruptions on the face or body, Cancerous sores, King's Evil, Chronic Costiveness, languor, debility, headache, dizziness, sallow complexion, and all those disorders which arise from the abuse of Mercury, or from an impure taint in the blood, no matter how acquired.

The extract have presented is prepared after directions given by the celebrated Dr. Warren, whose name it bears, and it will be found superior to any preparation of the kind now in use. It is highly concentrated, entirely vegetable, and very finely flavored to the taste. The change which it produces in the condition and tendency of the system is *speedy and permanent.*

As a Spring Medicine for purifying the blood—strengthening the stomach and body, and checking a consumptive habits, the Sarsaparilla, Tomato and Wild Cherry Bitters are entirely unrivalled.

Prepared and sold by DAVID E. BRADLEE, at the *Magasin de Sante* (Magazine of Health,) 138 Washington street, Boston. General Agency for Buchan's Hungarian Balsam of Life, Upham's Pile Electuary, Bradlee's Purifying and Preserving Pills, Dr. Jackson's Infallible Eradicator, Bradlee's New England Hair Restorative, Bradlee's Superior Cologne Water, &c.

Also—as above, all the Popular Medicines in general use, pure and genuine, at the lowest possible prices.

AGENTS—Bangor, D. BUGBEE. G. W. LADD; Hampden, L. Smith; Frankfort, Dr N Gilman; Duckport,

Whig and Courier.

John S Sharpe.—Editor.

FRIDAY, NOVEMBER 12, 1847.

A Specimen of a Curious Race of Men from South Africa.

The Boston papers give an account of a Boshjeman or Bushman from South Africa who is now in this country and will shortly be exhibited to the public

This race of men, certainly one of the most curious, in their physical organization and habits, on the face of the globe, inhabit a district of country lying some fifteen hundred miles North east of Cape Town The region of country which they inhabit is mountainous and difficult to approach The Bushmen have manifested the strongest dislike to any intercourse with other people They are exceedingly shy, and always fly to the wilderness at the approach of the white man—They have no fixed habitation, no language, except a kind of guttural utterance, very disagreeable to the ear Their food consists of reptiles, as lizards and &c In stature they seldom exceed four feet four inches in height They live in the bush, having no shelter of any kind, and dress in skins of the rudest description

Of the specimen now in Boston it is said that he is a fair sample of a race of men inhabiting our globe and that a dwarf of that race He is a giant compared with them He is about eighteen years old, three feet eleven inches in height, and of the medium stature of his tribe Great animal propensities are developed in the formation of the head, low forehead, high cheek bones small black eyes, flat nose, small ears color light chocolate—hair black curly but growing entirely different from the negro, starting out from the head in little bunches, leaving other parts of the head entirely bare, his limbs are perfect in their shape, and well proportioned in every respect

He has been taught to speak a little English and the Dutch, but as a long term is for the purpose of training fluids to be appropriated to his education, for he shows a sense of connecting link between the animal and rational works of God He is one of the bold unknowns of the 'newness'

Leonard's North American Spelling Book.

In this age people are just awaking to the importance of the proper pronunciation of that most difficult of all languages, their own, the English Those who have spent a lifetime in the endeavor to correct a faulty pronunciation will eagerly agree that it is very important at the very outset to teach children to pronounce properly, that they may not at a future period, be obliged to unlearn what they have already learned with so much toil and difficulty It is too common at this time also to hear scholars far advanced in the studies and even people who have, long since forgotten their school days, read in a most barbarous manner not only murdering the words but also making the matter either ludicrous or unintelligible All persons appreciate a good reader and unite in saying that it is an inestimable advantage to read properly—yet it is also true that slovenly habits in reading which are acquired in childhood can never be fully broken up To obviate the necessity of correcting the pronunciation once fixed and to lay the foundation for good reading is the object of Mr Leonard's work, and it is only necessary to ask those who use it whether he has succeeded or not Distinct articulation is a point particularly impressed upon the minds of the pupils by the author, and the exercise on the vowel and consonant sounds introduced for this purpose is at once a healthful, pleasing, and animating as well as useful exercise Another improvement that of placing a marked letter over a column of words to devote the sound of the letter in those words is a great assistance to the pupil Manuscript letters and some sentences in manuscript are also introduced, this is a good idea for it is almost as necessary to be able to read written letters as printed, and why not teach both at the same time The exercises for reading are such as are calculated both to interest and instruct the youthful mind Several of these are extracts from that book so much esteemed by children who have read it Todd's lectures to children Some also taken from Mrs Barbauld and Miss Edgeworth These lessons seem to consider the child as a reasonable being and are calculated to exercise his reason and to furnish his mind with food for reflection At the close of this work is a list of words spelt or pronounced in the same manner but with different significations, with their definitions The phonotypic alphabet is also added In short it is very rarely that so much useful and agreeable matter is found in so small a compass Another argument in its favor if that is necessary, is that it is published in this city by our enterprising townsman Mr D Bugbee who is already somewhat distinguished for the neatness and dispatch with which works are issued from his extensive establishment The increased sale of this work however proves that it is becoming justly appreciated

The Legislators of Tennessee on the 9th inst had made nine unsuccessful ballots for United States Senator The leading candidates were Messrs Reese, Netherland and Topp The Whig candidate for Comptroller of the State had been elected

☞ As we gave place yesterday to Dr Pond's reply to Dr Jordan's article which appeared in the Mercury, it becomes necessary in order that our readers may understand the whole matter, to give today Dr Jordan's communication

☞ Rev Dr Pomroy will deliver a lecture this evening before the Mechanics' Association at their Hall.—Members with their families and friends are invited to attend

☞ We were greatly disappointed yesterday in not receiving any papers by the boat.

☞ The Flour market in New York is getting heavy and dumpish.

He who makes an idol of his interest, makes a martyr of his integrity.

A great outcry is being raised by some of the London Journals against any future contributions on the part of the English in favor of Ireland, but whilst we perfectly agree with them in the absolute necessity of refusing unnecessary aid, with a view to stimulate exertion in all cases where the smallest doubt may exist respecting the utter destitution of the applicants, nevertheless we are not prepared "to turn our faces utterly from the poor" and refuse relief in cases where death and attendant circumstances actually threatened State necessity and expediency must ever rule even the harsh theories of political economy.—From Wilmer's Times.

[For the Whig and Courier

Fotography and Fonotypy.

As we expected—the hint has been taken—the schoolmaster is 'roused,' and has 'endeavored to correct a few of our errors'

After parroting what we mean, and explaining what is meant, by what he calls 'fho nography'—(though certainly we have spelled it more correct and concise,)—and passing over our 'minute of other world, &c,' he proceeds "upon truly philosophical principles," (according to his MSS to enlighten us with his 'Truth'

We may as well say, in explanation that our first article on this subject was written as much for the purpose of eliciting information as to attack the system We spoke our earnest conviction when we stated that we could see no advantage in the new system of spelling, which might not be obtained by a *modification* of the present system, and even now notwithstanding the patent truths of our opponent we cannot come to any other conclusion

Truth has not told the whole truth in regard to the printer's type case—for, though he took great pains to count over the 152 boxes Typo' knows what are in the boxes

In regard to accented letters, we were mistaken We had supposed the dots and quarks at the top of some of the letters, the little crosses, and small figures, attached to others were accents but worse still they are the frequently recurring characters which 'Truth' says are so simply formed and easily made He thinks he has put a grand climax upon his argument, when he asserts that the number of boxes *needed* and *used* by fonotypia is, 'lower case 52 upper case 30, which he believes is about 40 less than are used by the old system'—What an absurdity! According to his own showing 138 boxes are *used* in the new system, and as there are no silent or superfluous letters, we must suppose—deducting 10 boxes for figures—that the compositor's arm must be constantly 'going the rounds of 128' compartments; while we can show our article for truth that we do not use, generally but about *fifty* letters or characters, excluding SMALL CAPITALS of which we have seen none in the 'ANGLO SAXON' Here are a few samples of the contents of some of the boxes, so much trouble has been taken to enumerate and which are used scarcely once a month or a year, and are the merest trifles from the typo—ⲧ ⲩ ⲫ ⲭ ⲱ ⲁ ⲉ ⲓ ⲟ ⲩ ⲁ ⲉ ⲓ ⲟ ⲩ ⲁ ⲉ ⲓ ⲟ ⲩ
